EDUCATION

National Institute of Technology, Srinagar
B.Tech. – Computer Science Engineering CGPA – 8.96

Srinagar, India
Nov 2022 – Jul 2026

RELEVANT COURSEWORK

Data Structures and Algorithms — Operating Systems — Database Management Systems — Object-Oriented Programming (OOP) — Machine Learning — Web Development

EXPERIENCE

Web Development Intern

Apr 2024 – May 2024

JYTHU ENTERPRISE

Remote

- Developed a full-fledged e-commerce website using the MERN stack
- Implemented features such as product listings, shopping cart, payment integration, and user authentication.
- Optimized the website for speed and security, ensuring a smooth user experience.

Website Developer

May 2024 – Present

FREELANCER

Remote

- Developed multiple web applications using MERN stack for clients.
- Worked on real-life projects, providing innovative solutions to complex problems.
- Managed full development cycle from gathering requirements to deployment and support.

Web Development Intern

Oct 2024 – Present

HUBX

Remote

- Spearheading the design, development, and maintenance of web applications to enhance user experience and optimize performance
- Contributing to key projects by writing clean, maintainable code using JavaScript, HTML, CSS, MERN

PROJECTS

E-commerce Website | *HTML,CSS,JS,MERN,REDUX,TAILWIND*

May 2024

- Built a complete e-commerce platform using the MERN stack
- Integrated features like product listings, shopping cart, payment gateway, and user authentication
- Optimized for user experience, security, and performance across devices

Chat Application | *HTML,CSS,JS,MERN,REDUX,TAILWIND*

Sep 2024

- Developed a real-time chat application using Node.js, Express.js, and Web Sockets
- Implemented private and group chat functionalities, with message persistence and notifications
- Focused on user-friendly interface and responsive design for mobile and web

TECHNICAL SKILLS

Languages: Python, C/C++, JavaScript, HTML/CSS, Typescript

Frameworks: React, Node.js, Next.js, Express.js, Material-UI, Redux, Tailwind, Socket.io, REST APIs

Developer Tools: Git, VS Code, Visual Studio, jupyter notebook

Libraries: pandas, NumPy, Matplotlib

Other: Problem Solving, Data Structure Algorithms

ACHIEVEMENTS

- Secured 3rd position in Web Development Competition
